Serge, Taffeta or Faille Are
Favored Materials; Simplicity the Dominant Note in
Spring Fashions.

SPECIAL CORRESPONDENCE TO MORNING JOURNAL
New York, April 8.—Perhaps the most fascinating thing about the fashions this spring, is their seeming simplicity. Although a trifle more frilly and fuzzy than for a season or two back, this dainty little lingerie frock from Jenny, and that summer afternoon dress of striped chiffon and crepe, from the Maison Agnes, look as though they had been made at home. Why, the skirt is merely a double flounce of embroidered batiste on a taffeta foundation, and the sleeveless taffeta bodice is well, just a little taffeta bodice which could be made from that strip of blue pink, or changeable taffeta left from the frock of other days. The full straight skirt on another frock is made from three straight lengths gathered at the top, the fulness evenly distributed, and finished at the bottom with a quilling of the same silk. The puff sleeves are quaint and pretty, very dainty and youthful.

Serge, Taffeta and Faille.
These three materials are the leaders again this spring, with here and there a quaint revival; for instance, at a recent fashion show, there appeared a most attractive costume, a three-piece suit of Decold's, reviving etamine. Whether this is to be taken as an indication that etamine will again be popular this season, or not, is a question. It is known that materials are scarce on the other side of the ocean this year, that many an old fabric is being brought over from its almost forgotten resting place and fashioned into a spring or summer costume. Etamine was a particularly satisfactory summer fabric, cool, durable and soft. It would not come at all amiss were it to be revived this year.

Serge is as popular as ever, although it is said that we may have our troubles in dyeing it later on. Attractive combinations of taffeta and serge, and faille and serge are seen in many of the new suits for Easter. An effective suit of Cherrini's is fashioned of mixed dark blue couvert.

**BAD COLD? TAKE
'CASCARETS' FOR
BOWELS TONIGHT**

They're Fine! Liven Your Liver
and Bowels and Clear
Your Head.

No Headache, Sour Stomach,
Bad Cold or Constipation
by Morning.

Colds—whether in the head or any part of the body—are quickly overcome by urging the liver to action and keeping the bowels free of poison. Take Cascarets to-night and you will wake up with a clear head and your cold will be gone. Cascarets work while you sleep; they cleanse and regulate the stomach, remove the sour, undigested food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

Remember the quickest way to get rid of colds is one or two Cascarets at night to cleanse the system. Get a 16-cent box at any drug store. Don't forget the children. They relish this Candy Cathartic and it is often all that is needed to drive a cold from their little systems.

a distance it cannot be told from serge; and of course, for the sport suit, tweed is very popular. A particularly smart suit, made by Lanvin, is a light gray tweed trimmed with French blue broadcloth. There is very little of the leather, introduced earlier

tended for trimming, are often made over foundation slips of taffeta, and have taffeta bodices, collars, cuffs and girdles. Bias bands of taffeta or satin trim the skirts, and black velvet ribbons lend a touch of "old-fashioned" to the dainty sheer cottons modish this season.

The taffeta bodices, such as illustrated here, may be worn with any lingerie dress, if made detachable; they add a finish, particularly pleasing, making the simple dress appropriate for any occasion.

The Slip-on Blouse.

The new "long-line" blouses some of them are called; Cherrini sends us an especially pretty one fashioned of handkerchief linen, made to slip over the head, with a draw belt to gather it in loosely about the waist. Many of these slip-on waists are made on bias lines, low in the neck and wonderfully easy and graceful in every line. Taffeta, satin, crepe, chiffon, and the Chinese and Japanese silks are being used for these models, as well as the novelty cottons and sheer linens. The summer girl will appreciate their charm and comfort. These, too, are so simple that they may be fashioned at home with no misgivings at all—and what possibilities for becoming effects and color combinations they do afford!

WHY HAIR FALLS OUT

Dandruff causes a feverish irritation of the scalp, no hair roots shrink, loose and thin the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a 25-cent bottle of Danderine at any drug store, pour a little in your hand and rub well into the scalp. After a few applications all dandruff disappears and the hair stops coming out.
